Residential Snow Removal

The City of Williams Lake is asking for the public's assistance during this time of heavy snow fall by not parking vehicles along the side of the roads during snow clearing operations, so that plows can access the entire roadway. Vehicles impeding snow removal may be subjected to towing.

As garbage and recycling carts also impede snow removal, do not put your cart out on the curb the night before. Please place your cart on the curb by 7:00 am on your collection day and pull away from the curb after collection.

There will be snow removal crews working throughout the weekend. We thank residents for their patience and understanding as we continue to address the large volume of snow.
